React (Basic) verified certificate.
20 November 2022

## 💼 Professional Experience

**Full Stack Developer**
*One Big Bit Technologies Pvt. Ltd.* 🔗
June 2023 - Present | Lucknow, India
- Actively contribute as a Full Stack Developer in a dynamic software development company.
- Collaborate with a talented team of developers.
- Assist in the design and implementation of front-end and back-end features.

## 📂 Projects

**Rendezvous** 🔗
Complete software implementation for a Qatar-based game parlor, covering employee, inventory, and booking management.
Launched version 1 in 4 months with 4 developers; now enhancing version 2 with new features.
**Features:**
- Encompassing employee & inventory management systems.
- Seamless and end-to-end games and cafeteria bookings
- Platform with a clean and modern UI.

**Tech Stack:** React.js | Node.js | Express.js | MongoDB | Bootstrap 5

**Areas of responsibility:**
- Developed API for employee management and game bookings.
- Designed a user-friendly game booking interface.
- Contributed to both front-end and back-end development.
- Implemented enhancements based on client feedback and business needs.

**PCA Toolkit** 🔗
*Download apps* 🔗
Developed a website and desktop apps for Windows and macOS for the department of International Union for Conservation of Nature (IUCN), this project provides tools and case studies to enhance governance and management of protected areas, crucial for conserving endangered species, genetic diversity, and ecosystem services.

**Features:**
- Extensive search functionality for locating tools & case studies with a single keyword.
- Offline access to all toolkit resources.
- User-friendly interface leveraging Chakra UI and Bootstrap 5

**Tech Stack:** React.js | Tauri | BootStrap 5 | Chakra Ui

**Areas of responsibility:**
- Created both Windows and macOS desktop applications using Tauri.
- Designed and integrated advanced search features for efficient tool retrieval.
- Gathered and incorporated client feedback to refine the application.
